*10 December 2020*

17:00 - 19:00

## Technologies and Policies of the Industry 4.0 Era

Ioannis Soldatos

Senior Lecturer, AthTech College

This talk will introduce the fourth industrial revolution and its main technology enablers, including BigData, AI and the Industrial Internet of Things (IIoT). It will accordingly present representative use cases that disrupt industrial operations in different sectors. Finally, it will illustrate the main policy challenges should be confronted by enterprises and other organizations that wish to take advantage of Industry 4.0 opportunities.

- Participation is compulsory for Level 3 CS students
- Upon completion of the seminar series, certificates will be provided to attendees
